DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 29, 2005 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 2, 4-7, 11, 12 and 14-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

No support in the specification is provided for the registration utility, the transaction utility or the SRID, e.g. page 19, line 20 of the specification. Further, no support in the specification for "a computer system affiliated with said depository and comprising a processor that executes program code" nor "program code that when executed by the processor completes the functions" are present in the original application. As is, it is not clear what comprises the inventive concept recited from the claim language. Applicant's August 29, 2005 REMARKS have been reviewed, but are not convincing. Applicant must specifically point out where support for such offending claim language may be found in the original application to overcome this rejection.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 11, 12 and 14-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant's August 29, 2005 REMARKS have been reviewed, but are not convincing. No processor or the like to execute the program or software appears to be clearly recited in the original application. It is noted that Applicant has not addressed the transaction utility rejection nor the processor rejection from the previous Office Action.

Claim Rejections - 35 USC § 103

6. Claim s 1, 2, 4-7, 11, 12 and 14-17, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Landry, US 6,996,542.

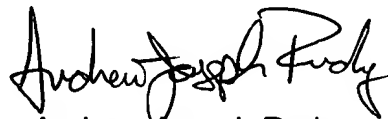

Landry discloses, e.g. Figs.1-3, 5, 8, 12, 19, an electronic commerce system where confidentiality of personal information is maintained and shipping services are used to deliver a product using a personal identifier, e.g. 18, that allows some information to be withheld from a second party, e.g. 20. The central computer, e.g. 110, and processor, e.g. 130, would inherently execute program code. As understood, Landry does not disclose a transaction utility. To have provided such for Landry would have been obvious for one of ordinary skill in the art. The motivation for having provided such would have been to incorporate such common knowledge software.

Applicant's August 29, 2005 REMARKS have been reviewed and the three previous art rejections are hereby withdrawn.
